

PT. Baria Tradinco

Lube Oil Blending Plant

ABOUT US

- Lube Oil Blending Plant
- Leading manufacturer of high-quality specialty lubricants
- Products serve automotive, industrial, marine, mining, and agriculture industries
- Certified by API and SNI
- Annual production capacity of 60,000 tons
- Invest in research and development to stay ahead of competition

History

From the early days of motor vehicles to modern times, lube oil blending plants have been blending lubricants with precision and efficiency. Our plant uses advanced technology and high-quality components to create lubricant products that meet the needs of various industries.

- 2023** Total capacity of **60,000 metric tons** per annum
- 2020-2021** Installation of **high capacity rotary** filling machines, increasing capacity to 32,000 bottles/hour
- 2006-2015** Installation of **automatic filling** machines with total capacity of 12,000 bottles/hour
- 2003** Plant completed with **20,000 metric tons** capacity per annum

CAPACITY

Description		
Blending Tanks	17 units	60,000 MT/Annum
Premixer Tank	3 units	4,5 MT
Bottle Filling Machine	5 units	350,000 bottles/day
Pail Filling Machine (18 L)	1 unit	800 pails/day
Drum Filling Machine (200 L)	3 units	600 drums/day
Storage Tank	34 units	3,000 MT
